

## Workshop Notes

“Notes? What are these notes you speak of? We needed notes?”

Welcome to the real world of what to do when things don't go as planned or you didn't plan anything because the person who was supposed to be teaching is sick and doesn't have a lesson plan!

- I. Introduction with different scenarios
- II. Ramifications of too much downtime by age group
- III. How to avoid needing to scramble
- IV. How to pivot and why
- V. Practical applications- every game created in the workshop will be played and documented by a minion to send to everyone
